and that is violence by talking.
It can leave you hurting
more than a cut with a knife.
It can leave you bruised inside"

Professional and Ethical Standards

I do this work because I passionately believe that schools must ensure the safety and well-being of students.

This is not a full time job for me. I take only a limited number of cases and devote as much time and energy as is needed for each case.

I will only accept cases in which egregious violation of laws, regulations and required practices are evident.

I remain available 24/7 to respond to crisis and emergencies.

I adhere to agreed upon timelines in providing drafts and outlines.

I provide an accurate accounting of time devoted to cases and I have a single hourly rate inclusive of materials, research and all work devoted to each case (no hidden fees).
